

# Dance Group

Does your child love music and movement?

Do you wish your child with special needs had fun adapted dance options?

Do you worry that your child's needs may be incompatible with a typical dance studio setting?

Enjoy learning dance techniques, body awareness, performance skills & movement in a safe, small-group fun nurturing environment!

This class is designed to be a fun, adapted dance experience for children who may struggle in a typical dance-studio setting. We strive to create an environment where the art of dance is a possibility for all levels of skills for children. Each class will include elements of a typical dance class while implementing strategies designed to help dancers with special needs be successful. **Dancers will also have the opportunity to perform in a recital on the last day of class!**
