

# FREE COMMUNITY WORKSHOP

## The Struggling Child in the Classroom

**ATTENTION: Parents, Teachers, Caregivers**

***Do you or someone you know have children that struggle in school? There are a variety of reasons there may be difficulties in the classroom.***

Could it be.....

- **Vision** - the muscles of the eyes don't work correctly?
- **Hand Skills** - is there difficulty manipulating items with their hands?
- **Posture** - are they unable to sit in a chair?

These are only a few explanations as to why a child may have issues in the classroom and with homework.

**Presented by:**  
**Magda Girao, MOTRL-CST-D**
