

SENSORY DIET

FREE COMMUNITY WORKSHOP

Curious about a way to regulate a child's engine??

A sensory diet is a combination of sensory input that will provide a child with the correct information for them to stay focused and organized throughout the day.

Ultimately helping them to: Deal with Challenging Situations, Increase attention span, Regulate alertness, Limit sensory seeking or avoiding behaviors, Handle outcomes & stress

Speaker: Amy Assenbacher, Occupational Therapist
Tuesday, March 22, 2016 7:30-9:00pm
